

Experiment with Light

Opportunities in 2017

The “Experiment with Light” is a Quaker discipline that helps people deepen their spiritual lives by trying out what it means to “wait in the Light” as early Quakers did.

There are three venues for a weekend introduction to the practice. These allow time to understand the Quaker roots of the practice, to try it for ourselves and to then reflect on our experience in a retreat-like time of quiet. Each is led by a team of experienced facilitators.

There is also a three-day retreat to deepen the practice.

Day workshops with Meetings or other groups are held around the country. This allows a chance to understand and try out the practice. These have been organised for many years now for many local Meetings by experienced facilitators. The expenses (travel and photocopying) of the workshop leaders are the only costs charged to the Meeting. To arrange a workshop, contact the EwL Network at this email to book dates and facilitators to help you.
