Taking action to confront suffering and injustice in our world can be challenging, and can throw up many questions. Britain Yearly Meeting has put together a 'Toolkit for Action' to help Friends take more effective action on issues they care about. Drawing from knowledge and stories of Friends' witness across the UK, it offers tools and guidance for creating change in our world.

**The Toolkit seeks to provide guidance on approaches to, and different tools for, creating change in the world. It includes resources to help individuals and groups explore:**

- ★ Planning and Strategy.
- ★ Organising actions
- ★ Engaging elective representatives
- ★ Media and social media

View the resource online at [www.quaker.org.uk/toolkit-for-action](http://www.quaker.org.uk/toolkit-for-action).
