## Issue 5: Spring 2023

### Welcome to the Spring issue!

Welcome to the Clerks Update, the communication channel for clerks of local and area Quaker communities. This is the first edition in 2023. You can view an archive of past messages on our website at [www.quaker.org.uk/clerks-update](http://www.quaker.org.uk/clerks-update).

### Information for Quaker clerks

#### Peace at the heart of Scottish schools

##### ***A travelling exhibition en-route to the Scottish Parliament***

Would you like to engage your local community in peace education? We are looking for Quakers in Scotland to host a travelling exhibition in their meeting houses, local schools or other community venues. The growing exhibition will then gather ideas for building peace as it makes its way to Holyrood where MSPs will be presented with a picture of how peace education is helping Scotland and the world. If you think you could [host or support the travelling exhibition please find out more here](#).

We are hoping to secure firm commitments to be involved by 27 March 2023.

#### Safer recruitment documents

Britain Yearly Meeting has produced some documents on safer recruitment as part of its responsibilities to area meetings on safeguarding. The documents are there to help local and area meetings consider how their nominations processes can include best practice advice on safer recruitment. You can find the safer recruitment materials on the [safeguarding page of the BYM website](#). Under the heading *Model Safeguarding Documents for Area Meeting Safeguarding Coordinators* you will find a document you can download – [Safeguarding Procedures and Toolkit](#) (safer recruitment is covered in **sections 5 & 6**).

#### Energy bill support for places of worship

The UK Government has published its scheme to assist non-domestic customers, which includes places of worship, with their energy bills from April 2023 to March 2024. The announcement can be seen at [www.gov.uk/guidance/energy-bills-discount-scheme](http://www.gov.uk/guidance/energy-bills-discount-scheme).

For most customers, a discount on the price per unit will be applied automatically via energy bills. Details of the discount are linked to above, and energy providers should confirm with all customers before the end of March 2023. There are some conditions relating to the kind of contract which the customer has with the supplier. In most cases, this will mean a rise in the unit cost of energy from April 2023 compared to what is being paid now, but it will still be below the market price.

## Life Cycle of Quaker Communities – Consultation Conversations

### Throughout April 2023 – online

Many Quaker meetings and communities are changing. A lot of our numbers are smaller. What are some of the ways we might adjust? What does it look like to have faith and cherish our communities while also recognising that our energy levels are getting low?

Since summer 2021, Emily Provance (New York Yearly Meeting) has been working with a group of Friends from multiple yearly meetings, countries, and theological branches of Quakerism. The group has been exploring transitions and endings for Quaker meetings. They've produced a publication about [the life cycle of meetings](#) and [a resource for Friends' meetings that are nearing the end of their life cycles](#).

In April 2023, as part of this ongoing project, Friends everywhere are invited to participate in a series of Zoom-based consultations. These gatherings have three purposes:

- for each participant to learn
- for each participant to share their own knowledge and insights
- and for each participant to meet other Friends who are experiencing similar circumstances to their own.

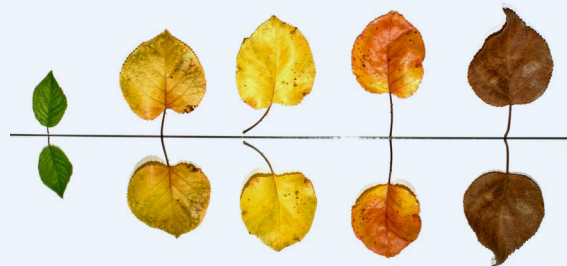

In each 90-minute consultation, you'll hear a brief presentation, then have a chance to ask questions and engage in an open conversation.

Topics include the following:

- the life cycle of meetings
- simplifying committee structures
- combining / merging meetings
- sharing / repurposing / selling buildings
- restructuring local meetings
- and laying down meetings.

There are also consultations specifically for yearly meeting staff members and clerks, quarterly or regional meeting staff members and clerks, record keepers, and trustees.

You're welcome to attend as many of these as feel relevant to you. Look online to [find more information and register](#).
