

EmpowerHer

The EmpowerHer project is based in Rwanda and is supported by Forward Africa Education Trust.

The project will offer a 6-month vocational training course at Mwananshuti Vocational Training School in Kicukiro district for eight single mothers below the age of 30 who have a low income and have no support from other organizations. It will equip the young women with practical skills, professional development, and emotional support to build sustainable livelihoods. The project resulted from a need identified from an earlier project funded by a Simmons grant, which provided vocational and entrepreneurship training to ten young Quakers.
