

QCPYOU

The Quaker Congo Partnership: Focus on Youth: Peacebuilding, Leadership and Governance project is based in the Democratic Republic of Congo and is supported by Hebden Bridge Local Meeting, and Brighouse West Yorkshire and Manchester & Warrington Area Meetings.

The project will provide training for the Communauté Église Évangélique des Amis du Congo (CEEACO) on peacebuilding for young people, supporting the Youth Peace Council and the Club Ami des filles. It will also help develop fundraising, management and governance skills within CEEACO itself.

Six days of training in peacebuilding techniques will be provided by Turning the Tide, with refreshments and travel expenses for participants. Funding will be provided for the Youth Peace Council and the Club Ami des filles events and meetings. A key aim is to also help the organisation achieve financial sustainability, with training on setting budgets, financial management and reporting, and writing funding proposals.
